

Remarks

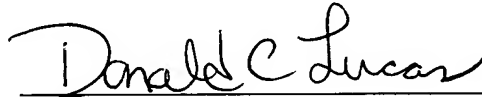

Applicants hereby elect Species I, as shown in Fig 1-4. This election is made with traverse. Applicants state that Figures 8A – 8E are modifications of the screw and nut arrangement shown in Fig. 4. Figures 8A – 8E should be included in Species I because, as seen in Fig. 4, the head of the screw is continuous, but the thread of the nut is discontinuous.

The following claims are included in Species I: 1-3, 10, 11, 17, and 18.

In view of the foregoing, reconsideration and examination are requested.

Respectfully submitted,

By:

Donald C. Lucas,
